

## **Intermediate Environmental Professional - Soils and Water**

What if you could work alongside inspiring scientists, managers, and thought leaders, using state-of-the-art equipment, on high-profile projects, with diverse people working toward a common goal? Are you looking for a place where you can be you, a place where you can thrive? Triton might be just what you're looking for.

### **THE OPPORTUNITY**

Triton Environmental Consultants Ltd. ("Triton") is seeking a highly motivated and enthusiastic **Intermediate Environmental Professional - Soils and Water** to join a well-established team of environmental professionals in our **Vancouver office**.

The successful candidate will be responsible for delivering the technical components of soil and water related field programs and providing support to project managers. Responsibilities include, but are not limited to the following:

- Contributing expertise to multi-disciplinary project.
- Liaising with clients, regulators, contractors, and sub-contractors.
- Leading field teams to ensure the quality, cost, and timeliness of deliverables.
- Providing mentorship and training for our junior environmental professionals.
- Ensuring clients' and Triton's safety standards are maintained or exceeded
- Working collaboratively within Triton's corporate culture.

This role is anticipated to be a mixture of field and office work, with the proportions of each varying throughout the year.

### **SKILLS AND QUALIFICATIONS**

- Relevant degree or diploma.
- 5+ years of relevant work experience in BC.
- Holder of or immediately eligible for a relevant professional designation (e.g., PAg).
- Demonstrated ability to work with multiple projects at once, under deadline pressure.
- Sound decision-making, takes initiative, team-player.

- Experience using ESDat software.
- Experience with other software used in contaminated sites applications.
- Advanced expertise with managing large datasets.
- Experience with soil, groundwater and surface water sampling using a variety of equipment
- Experience with soil characterization for disposal to support construction projects within BC or on federal land in BC.
- Familiarity and experience with BC CSR, particularly Protocol 19 requirements.
- Familiarity and experience with BC CSR submissions related to construction scopes (e.g., Notice of Independent Remediation).
- Experience and understanding of surface water, groundwater, and soil quality standards and guidelines (i.e., BC Water Quality Guidelines, CCME guidelines for surface water, soil, sediment, groundwater, BC CSR standards).
- Experience conducting Phase I and II Environmental Site Assessments.
- Expertise with database software.
- Experience with hydrological modelling.
- Experience with environmental monitoring on construction sites is considered an asset.
- Valid driver's license from a Canadian province or Territory acceptable for driving alone and with passengers in a work setting.

### **About Triton Environmental Consultants Ltd.:**

Triton is an environmental consulting firm with over 30 years of experience responding to the environmental needs of resource developers across all sectors, as well as all levels of government. We have deep roots in our communities, strong relationships with clients and regulators, and a track record of helping projects get built responsibly. Triton is known for being technically strong and pragmatic in its approach and having a safety-focused and people-first culture. Triton's multi-disciplinary team comprises environmental professionals specializing in aquatic and terrestrial biology, soil science, vegetation ecology, environmental assessment, environmental auditing, environmental monitoring/inspection, and resource management. We apply this wide range of expertise in providing practical environmental solutions to our clients. Triton has offices in Vancouver, Vernon, Kamloops, Prince George, Terrace, Kitimat, Prince Rupert, Calgary, Edmonton, Regina, and Saskatoon, and is now expanding to

Guelph and Halifax.

Triton is growing and looking for talented professionals to support our continued growth. In addition to a challenging and supportive working environment and a management team dedicated to promoting your personal and professional development Triton offers:

- Competitive total compensation package, including paid vacation and overtime pay.
- Financial support for continued education and/or professional growth opportunities.
- A comprehensive benefits package, including medical, dental, prescription drug, life insurance, pension matching, and a Health Spending Account
