**Eco-Web Ecological Consulting Ltd.** offers a full spectrum of environmental services to the energy sectors (oil and gas, hydroelectric, wind), transportation sector and government in northeastern British Columbia. Eco-Web specializes in pre-development environmental assessments, fish and wildlife research, wildlife mitigation planning, environmental construction monitoring, reclamation and natural restoration and wildlife management during emergency spill responses. Eco-Web is looking to add to our team with experienced, hardworking, self-motivated people with a drive to succeed and further their careers on dynamic and exciting projects. As a small company we can guarantee that your professional development and career growth will be maximized on our team. Eco-Web is currently looking to fill these full-time positions in our Fort St John office:

**Ecological Restoration Specialist** – Eco-Web is looking for a motivated soil, vegetation and wildlife ecological professional to help manage our restoration projects in northeastern BC. Candidates should have demonstrated experience in soil and vegetation assessments, Schedule A and B Assessments to fulfill BCER/ALC requirements, submission of non-farm use applications to both the BCER and ALC, agricultural reclamation methods, ecological restoration techniques (rough and loose, mounding, planting, staking), topsoil stripping and replacement, erosion and sediment control, slope stability techniques, heavy equipment supervision, and wellsite and pipeline construction knowledge. The ideal candidate will have a minimum 4-6 years' experience, a strong background in project management, a minimum BSc degree and this position requires membership in the BC Institute of Agrologists as a Professional Agrologist (CAB (RPBio) or CPESC standing alternatively). This is a full-time salary plus position with benefits.

The position is based out of Fort St. John and applicants are expected to be based locally for this work. Annual wage \$75,000 - \$100,000 plus overtime dependent on qualifications and experience. Please send resumes to [jobs@eco-web.ca](mailto:jobs@eco-web.ca) or to our office at 8211 93<sup>rd</sup> Street, Fort St. John, BC V1J 6X1. Resumes will be received until the position has been filled.
