

BCIA Academic Worksheet

Applicant Name _____

Provide course code and level in the spaces (ex. Biol 321)

List a minimum of twelve (12) courses *that clearly demonstrate a direct link to Agrology as defined in the [Agrologists Regulation](#)*.

_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

I have read and understood BCIA’s information on professional development (PD) obligations including the guidelines and required PD hour minimums, plus BCIA’s recognized Practice Areas at www.bcia.com. Identified area(s) are declared annually by the registrant and registrants are expected to operate within those once accepted into the institute.

I understand that technologists may practice independently (i.e. without PAg supervision) with restricted scopes of practice. The restricted scope of practice allows the TAg to collect data, operate equipment, and make recommendations to other professionals; however, it prevents them from advising, interpreting, or recommending in situations where they may present a risk to the public. A scope of practice is a defined range of roles, functions, responsibilities, and activities for which the profession or occupation has competence and authority to provide services.

Applicants must include this worksheet with their official application package. Registration as an articling registrant may be granted upon a comprehensive and satisfactory course by course review by the Credentials Committee, referencing original transcripts from post secondary education(s). This form is only a working tool to assist the applicant in the application process and even if all fields are completed, it does not indicate eligibility for registration into the Institute.

Please upload this PDF form when completing your online application.
