

## **Project Manager - Environment -Prince George**

What if you could work alongside inspiring scientists, managers, and thought leaders, using state-of-the-art equipment, with diverse people working toward a common goal? Are you looking for a place where you can be you, a place where you can thrive? Triton might be just what you're looking for.

### **THE OPPORTUNITY**

Triton Environmental Consultants Ltd. ("Triton") is seeking a highly-motivated and enthusiastic **Project Manager - Environment** to join a well-established team of environmental professionals in our Prince George office.

### **THE OPPORTUNITY**

Triton Environmental Consultants Ltd. ("Triton") is seeking a highly motivated, enthusiastic, and experienced **Project Manager** to join a well-established team of environmental professionals in our Prince George office.

The successful candidate will primarily support the management of Triton's oil and gas projects throughout BC, as well as our other projects and project teams as needed. Our project managers are the cornerstone of our business and are committed to outstanding client service. In this role you will be responsible for managing the on-time and on-budget delivery of projects and providing mentorship to more junior staff. Our client base ranges from regional clients to multi-national oil & gas companies, to government, First Nations, power management, and transportation firms.

This is a fulltime, permanent position. Responsibilities include, but are not limited to the following:

- Planning, organizing, and managing a diverse array of projects, people, and tasks
- Liaising and negotiating with other partners, clients, regulators, contractors, and sub-contractors
- Establishing and developing client relationships that facilitate successful delivery of projects and the maintenance of future and ongoing opportunities
- Writing high-quality reports, cost estimates, and proposals
- Creating project status reports and maintaining project documentation
- Leading technical teams to ensure the quality, cost, and timeliness of deliverables
- Contributing specialist expertise to multi-disciplinary projects
- Providing mentorship and training for our environmental professional team
- Providing excellent service to existing clients and maintaining those relationships
- Supporting corporate business development initiatives
- Ensuring client's and Triton's safety standards are maintained or exceeded
- Promote and maintain a positive work environment through a culture of teamwork and cooperation within the office, region, and between other areas of the organization

### **SKILLS AND QUALIFICATIONS**

- Degree or diploma in a related field (environmental science, biology, agrology, ecology, etc)

- Knowledge of and experience with environmental standards, and regulations or guidelines and federal and provincial regulations
- Demonstrated increasing experience in project management (i.e., budgeting, project tracking, cost-accounting and scope control) and with the leadership and supervision of project teams
- Understanding of the regional market and business development opportunities
- A quick learner, easily adapting to new software applications, systems, and business processes
- Effective writing skills, and ability to produce meaningful reports and proposals
- Superbly organized and self-managed, with a collaborative working style
- Strong problem solver able to address challenges with effective solutions that improve systems and/or relationships, and with the ability to think outside the box
- Previous experience in the environmental consulting industry, especially oil and gas, is an asset
- Accreditation or eligibility for accreditation with professional governing body recognized in BC (R.P. Bio, P.Ag., ASCT.) is an asset

#### **About Triton Environmental Consultants Ltd.:**

Triton is an environmental consulting firm with over 30 years of experience responding to the environmental needs of resource developers across all sectors, as well as all levels of government. We have deep roots in our communities, strong relationships with clients and regulators, and a track record of helping projects get built responsibly. Triton is known for being technically strong and pragmatic in its approach and having a safety-focused and people-first culture. Triton's multi-disciplinary team comprises environmental professionals specializing in aquatic and terrestrial biology, soil science, vegetation ecology, environmental assessment, environmental auditing, environmental monitoring/inspection, and resource management. We apply this wide range of expertise in providing practical environmental solutions to our clients. Triton has offices in Vancouver, Vernon, Prince George, Terrace, Kitimat, Prince Rupert, Kamloops, Calgary, Edmonton, Regina, and Saskatoon, and is now expanding to Guelph and Halifax.

Triton is growing and looking for talented professionals to support our continued growth. In addition to a challenging and supportive working environment and a management team dedicated to promoting your personal and professional development Triton offers:

- Competitive total compensation package, including paid vacation and overtime pay
- A comprehensive benefits package, including medical, dental, prescription drug, life insurance, pension matching, and a Health Spending Account
- Financial support for continued education and/or professional growth opportunities
- Potential relocation costs could be allocated for the right candidate

The compensation range for this position is \$50-\$70 per hour, dependent on qualifications and experience.

#### **HOW TO APPLY**

If this opportunity sounds like you, and you are serious about joining a progressive team of environmental consultants, please apply with a resume and cover letter.

This posting will remain active until the position has been filled.
