The symposium will focus on discussions of collaborative approaches to managing a complex landscape. This landscape (the plateau east of the Okanagan Valley) supplies drinking and irrigation water, supports timber, recreation, wildlife and grazing activities all in close proximity to the urban areas of the Okanagan. The tour will take you onto the plateau where most of the research has happened.

The Prestige is on the east side of Hwy 97 on the north side of Vernon. Turning in can be tricky. Coming north the easiest is to be in the right land and turn in prior to the buildings, if you miss that you have one more chance just past the buildings, it is a sharp turn, coming south on Hwy 97 there is a left turn lane just prior to the buildings. Happy driving.
